

Application No. 09/594,513
Amendment Under 37 C.F.R. §1.111 dated May 26, 2004
Response to the Office Action of February 26, 2004

IN THE CLAIMS:

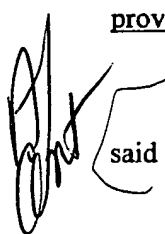

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

Claims 1 (Currently Amended): An image pickup device comprising:

a connector that is connectible with an electronic apparatus, said connector being directly provided on the image pickup device without an external cable; and

 a reinforcing portion that is located near said connector and reinforces said connector when said electronic apparatus and said connector connect with each other.

Claim 2 (Original): An image pickup device according to claim 1 further comprising an anchor portion and a movable portion, said moveable portion including an image pickup portion, and said connector and said reinforcing portion being placed on said anchor portion.

Claim 3 (Original): An image pickup device according to claim 2, wherein said reinforcing portion is stored in said anchor portion so that said reinforcing portion can project from said anchor portion.

Application No. 09/594,513
Amendment Under 37 C.F.R. §1.111 dated May 26, 2004
Response to the Office Action of February 26, 2004

Claim 4 (Original): An image pickup device according to claim 2 further comprising a stand that is connected with said anchor portion and serves to adjust a height of said anchor portion.

Claim 5 (Original): An image pickup device according to claim 4, wherein said stand also serves to adjust a tilt of said anchor portion.

 Claim 6 (Original): An image pickup device according to claim 2, wherein said anchor portion includes a storage portion that can store said image pickup portion.

Claims 7 – 8 (Canceled)

Claim 9 (Currently Amended): An image pickup device ~~according to claim 8~~ comprising:
a connector that is connectible with an electronic apparatus;
an attachment portion that enables said image pickup device to be attached to an external
apparatus; and
an anchor portion and a movable portion, said movable portion including an image pickup
portion, said connector being placed on said anchor portion, and said attachment portion enabling
said anchor portion to be attached to the external apparatus,

wherein said attachment portion can be provided onto said anchor portion so that attachment portion can project from said anchor portion.
